WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A probable military installation is located approximately 7 kilometers (km) west of the center of Volgograd (Figure 1). The installation (Figures 2 and 3) is composed of 3 separately fenced areas. Two adjacent areas cover approximately 100 acres and contain 2 probable barracks, 12 storage buildings, 11 probable ammunition storage buildings, and 2 guardhouses/checkpoints. A third area, approximately 500 meters from the 2 adjacent

areas, covers 30 acres and contains 11 storage bunkers and 3 small unidentified buildings (Figures 2 and 3).

This installation was covered on TALENT photography of [REDACTED]

The installation appears active, and photography of [REDACTED] reveals the addition of 3 storage revetments and blast walls around 11 of the storage buildings.

DESCRIPTION OF INSTALLATION

Railroad Service

A single-track railroad serving Volgograd passes just south of this installation; however, there are no transshipment points.

Road Service

A good, hard-surfaced, all-weather road running east-west passes immediately south of the installation.

Administration and Troop Housing Area

Area D contains 2 probable barracks, 1 revetted storage building, 11 other storage buildings, and 8 probable ammunition storage buildings. Five of the 8 probable ammunition

storage buildings are surrounded by blast walls, and the other 3 are partially surrounded by blast walls. Two guardhouses/checkpoints are outside the fence on the south. The southwestern part of this area contains approximately 85 vehicles in 4 rows. The entire area is double fenced.

Ammunition Storage Areas

Area F1 contains 3 probable ammunition storage buildings surrounded by blast walls. This area is double fenced.

Area F2 contains 11 storage bunkers and 3 small unidentified buildings. The area is surrounded by a double fence.
